

## Chronic Medicine Benefit (Formulary) 2026

### Who we are

MEDiPOS Medical Scheme (referred to as "the Scheme"), registration number 1548, is a not-for-profit organisation, registered with the Council for Medical Schemes.

Discovery Health (Pty) Ltd, registration number 1997/013480/07, (referred to as "the administrator") is a separate company and an authorised financial services provider and is responsible for the administration of your membership on behalf of the Scheme.

### Important information you need to know

The MEDiPOS Medical Scheme Rules set out the requirements for the chronic medicine benefit. The utilisation of the benefits and programmes associated with the this benefit is subject to specific conditions and rules. Members must ensure that they are familiar with these rules and conditions, available on [www.medipos.co.za](http://www.medipos.co.za).

Any instruction or advice we give about medicines and the management of the member's condition is intended as a supplement to, and not a substitute for, the knowledge, expertise, skill and judgement of the member's healthcare providers.

The Scheme reserves the right to change the benefit at any time. We will communicate any changes to the way we pay for medicines when we make these.

This document outlines the medicines covered without a co-payment under the chronic list of conditions. Certain items may not be available on Option C and will be funded up to Therapeutic Reference Price.

We cover medicine not on the medicine list up to a set monthly Chronic Drug Amount (CDA) or Reference Price, whichever is applicable.

From 1 February 2026, should a non DSP Pharmacy be used, Option B Classic and Option C members will be responsible for a co-payment. MediRite is the DPS's for chronic medicine.

### About some of the terms used in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of some of them:

Terminology	Description
Active ingredient	This is the main substance in a medicine that is responsible for the clinical action on a human body.
Benefit year	A benefit year refers to the benefits a member is entitled to during a calendar year, that is to say 1 January to 31 December. This medicine list (formulary) is applicable for 2026 only.

Terminology	Description
Chronic List	A defined list of chronic conditions we cover according to the Prescribed Minimum Benefits (PMB).
Chronic Drug Amount (CDA)	The Chronic Drug Amount (CDA) is the monthly amount that we pay for a medicine class, subject to a member's benefit option. This applies to chronic medicine that is not listed on the medicine list (formulary).
Designated Service Provider (DSP)	Appointed by the Scheme to provide certain specified medical services to members, e.g. a group of healthcare providers or a State facility.
Medicine class	This describes medicines that have similar chemical structures or similar therapeutic effects.
Prescribed Minimum Benefit (PMB) conditions	<p>In terms of the Medical Schemes Act of 1998 (Act number 131 of 1998) and its regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of any life-threatening emergency medical condition, a defined set of 270 diagnoses and 27 chronic conditions. These conditions and their treatments are known as the Prescribed Minimum Benefits (PMB).</p> <p>All medical schemes in South Africa have to include the (PMBs) in the benefit options they offer to their members. There are, however, certain requirements that a member must meet before they can benefit from this. The three requirements are:</p> <ul style="list-style-type: none"> <li>• The condition must be part of the list of defined PMB conditions</li> <li>• The treatment needed must match the treatments in the defined benefits on the PMB list</li> <li>• Members must use the scheme's designated healthcare service providers.</li> </ul>
Reference price	The Reference Price is the set monthly amount we pay for a medicine category. This applies for medicine that is not listed on the medicine list (formulary).

## The Chronic Disease List (CDL) medicine list (formulary) for all Options

We cover approved medicine not on the medicine list (formulary) up to the Chronic Drug Amount (CDA) or the Reference Price, whichever is applicable for the Option. The Chronic Drug Amount (CDA) **does not apply** to Option C.

Medicine marked with an asterisk (\*) will soon be removed from the medicine list (formulary)
